Comment 1: For my 40lb tanks they charge \$32 per tank plus a monthly \$10.45 service fee. For 100 lb they charge I believe \$90 per tank. Not sure price for 60 lb. I highly recommend them!!!		
<u>Appliance Replacement Parts</u>		
General Parts Group

Comment:

Highly recommend!! Countless times they've helped me, even arranged a tow to their shop at night when my insurance wouldn't do it.

Broadway Ford truck repair

(just south of the stadium)

Comment: When I used to park downtown I went to them

Propane leak test:

(not sure how current these are, I have to search for a place every year)

Comment: Love this place!

50/30amp etc electrical cords and possibly other internal electrical issues (non vehicle related, he's not a vehicle mechanic):

my husband Ted is an electrician and can make them specified to your needs

if he's not too busy with his other job, he can give you a quote etc. He made my cords for WashU and Cortex, and installed the 50amp hookup where I park.

email angie@angieburger.com

Places that I do not recommend (personal opinion):

Greasemasters

(\$300 to do a crap job of "power washing" up inside my hood. also expensive to tag equipment. they took FOREVER to get back to me every time)

Central Fire & Safety

(they broke my fire extinguisher 6 months ago and have yet to refund me my \$130. They also charged me \$185 to come look at my old roof exhaust and give estimate to replace, and never did anything despite countless follow-up calls/emails from me).
